DEAKINCONNECT

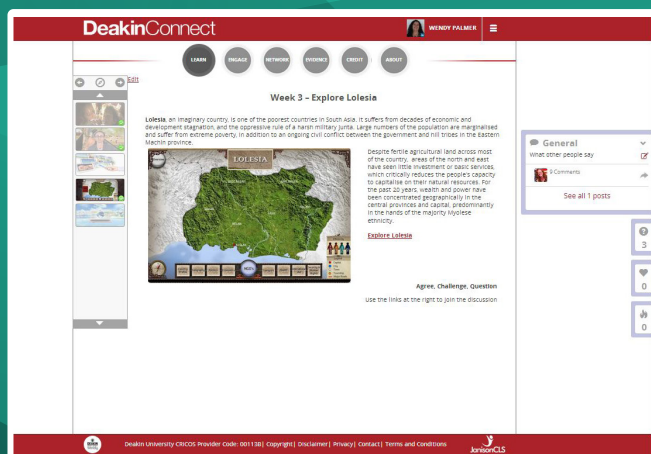

DEAKIN'S OPEN LEARNING ENVIRONMENT

Deakin University this year launched their first massive open online course (MOOC) entitled 'Humanitarian Responses to 21st Century Disasters' which demonstrates Deakin's holistic approach to developing stimulating and engaging learning environments. DeakinConnect was developed on DeakinPrime's digital platform which combines a state-of-the-art cloud-based Learning Management System (LMS) with an agile approach to curating and developing digital content that provides our clients with rapid, high value outcomes.

The MOOC, 'Humanitarian Responses to 21st Century Disasters', is currently being delivered to thousands of students in over 60 countries, and its features include:

- optional profile integration with social networks, allowing updates to be posted to LinkedIn, Facebook and Twitter;
- asocial network influenced discussion environment with tools to stimulate debate and engagement;
- integration with an online portfolio tool to record personal development;
- the use of peer reviewed digital badging for peer-to-peer credit; and
- pathways to earn credit towards the relevant Deakin University degree.

To see how new and emerging technologies can provide innovative solutions to help define the future of digital learning, go to www.deakinconnect.com or contact DeakinPrime.
